

LIEZL L. JAMINDANG

Executive Virtual Assistant | Administrative & Operations Support | AI & Automation Support | No-Code Website Builder

Philippines | (+63) 961 243 6318 | liezljamindang@gmail.com | Remote, Available Immediately

PROFESSIONAL SUMMARY

Executive Virtual Assistant with 10+ years of combined experience in administrative support, business operations, online research, data scraping, lead generation, CRM management, and digital tools. Most recently supported an AI Automation Engineer serving hospital and clinic clients, managing executive inbox and calendar, organizing Google Drive files for automation mapping, conducting research and data scraping, and handling day-to-day administrative coordination.

Prior to virtual assistance, spent 7 years running an independent business, managing customers, suppliers, orders, payments, inventory, schedules, documentation, marketing, and daily operations. This built strong ownership, independent problem-solving, and the ability to identify what needs attention without waiting for instructions.

Comfortable on the technical side of business: builds no-code and AI-assisted websites from concept to deployment, including layout and design, responsive pages, interactive elements, troubleshooting, testing, and ongoing updates. Also uses AI tools and prompt engineering for research, content creation, visual creation, problem-solving, and everyday business support. Currently open to remote Executive VA, Administrative Support, Operations Support, AI/Automation Support, and No-Code Website opportunities.

CORE SKILLS

- Executive Support
- Virtual Assistance
- Administrative Support
- Business Operations
- Operations Support
- Email and Inbox Management

FEATURED PROJECTS

Business Website Design and Development, Kidtech Compucare

- Handled end-to-end design and AI-assisted development of a live business website, including layout and design, responsive page structure, interactive elements, troubleshooting, testing, and deployment

Online Research and Data Scraping, Case Study

- Conducted structured research and data scraping to support business decision-making and operational planning

AI Prompt Engineering and Visual Creation, Portfolio Piece

- Applied structured prompt engineering across generative AI tools to produce content, visuals, and creative direction for business use

Amazon Wholesale Profit Calculator, Self-Directed Project, Replit

- Built a working profit calculator applying Amazon wholesale sourcing math (selling price, cost per unit, fees, margin), validated with 10 out of 10 test cases passed, including edge cases such as zero values and decimals

WORK EXPERIENCE

Executive Virtual Assistant, Confidential Client, AI Automation Engineer serving Hospital and Clinic Clients

November 2025 to April 2026 | Project-Based, 10 hours per week, Remote

- Provided Executive Virtual Assistant and administrative support to an AI Automation Engineer serving hospital and clinic clients
- Managed executive inbox, email organization, and correspondence
- Coordinated calendars, appointments, and schedules across multiple time zones with zero scheduling conflicts
- Organized Google Drive files and documentation used for automation mapping
- Conducted online research, data collection, and data scraping for ongoing projects

- Turned research findings into clear, actionable information for faster decision-making
- Prepared and formatted professional documents and reports
- Supported administrative coordination and organization across ongoing projects
- Handled confidential client and business information with professionalism and discretion

Instagram Lead Generation Specialist, Confidential Client, Online Fitness Coaching Business

October 2025 to December 2025 | Project-Based, Weekends Only, Remote

- Conducted high-volume Instagram lead generation and prospect outreach
- Sent an average of 100 personalized cold DMs per day to followers and post engagers
- Converted cold outreach into qualified leads at approximately a 2 percent daily conversion rate
- Built rapport with prospects through personalized, natural conversations
- Qualified and organized prospect information in GoHighLevel
- Maintained accurate CRM records to keep the sales pipeline organized and up to date

Business Owner and Operations Manager, Kirzel's Sweet Tooth and Prints

2018 to 2025 | Full-Time

- Managed the complete day-to-day operations of an independent business for 7 years, with hands-on experience in administration, customer service, operations, supplier coordination, reconciliation, and business management
- Managed customer communication, inboxes, scheduling, and daily administrative operations
- Tracked and reconciled orders, payments, and inventory records to identify and resolve discrepancies
- Managed supplier sourcing, pricing negotiations, purchasing, and coordination, including international sourcing through Alibaba
- Created SOPs and internal checklists to keep recurring processes organized and consistent
- Managed business expenses, records, and documentation
- Designed product visuals, promotional materials, and branded content using Canva
- Managed social media content and customer communication
- Handled customer concerns and operational issues independently
- Managed multiple priorities without an in-house administrative team

Campaign Manager, Voiceless Technologies Philippines, Inc.

2016 to 2018 | Full-Time

- Served as primary client liaison and managed all outbound communications and campaign coordination
- Tracked KPIs and prepared end-of-day performance reports distributed to stakeholders
- Coached and supported team members to improve lead generation outcomes and campaign performance

Quality Assurance Specialist, Voiceless Technologies Philippines, Inc.

2014 to 2016 | Full-Time

- Conducted call monitoring and quality scoring to ensure compliance and proper call flow
- Participated in calibration sessions to standardize quality assessments across the team
- Contributed to process documentation and quality improvement initiatives
